

GECKO YE, REMOVAL & REPLACEMENT

Removal / Replacement of Gecko YE Series Equipment Pack

To Remove YE Equipment Pack:

Test and turn off GFCI circuit breaker. Use lock out tag out device to insure the circuit breaker is not turned on while service is being performed.

(Lockout-Tagout (LOTO) or lock and tag is a safety procedure used to ensure that dangerous equipment is properly shut off and not able to be started up again prior to the completion of maintenance or servicing work.—1910.147 OSHA)

1. Remove equipment cover by removing the 4 screws holding it in place.
2. Remove 3 screws from strain relief bar.
3. Remove all component cords (pump, blower, light, etc.) from the equipment pack by pushing in tabs on the amp connectors at the terminal point.
4. Remove all copper ground wire from the exterior ground terminal.
5. Remove incoming power supply wires from electrical pack.
6. Remove the screws that are used to mount the electrical pack.
7. Close both water valves on the heater / pump 1 water circuit.
8. Loosen and disconnect both black unions on the end of the heater.
9. Remove electrical pack from spa.

To Replace YE Equipment Pack:

Reverse the “Remove” procedure above.

Heater Replacement Gecko YE Equipment Pack:

Test and turn off GFCI circuit breaker. Use lock out tag out device to insure the circuit breaker is not turned on while service is being performed.

(Lockout-Tagout (LOTO) or lock and tag is a safety procedure used to ensure that dangerous equipment is properly shut off and not able to be started up again prior to the completion of maintenance or servicing work.—1910.147 OSHA)

1. Remove equipment cover by removing the 4 screws holding it in place.
2. Remove the 2 screws from the heater mounting bracket.
3. Remove the high limit and temperature probe from the electrical pack.
4. Remove the 2 heater power supply lines and ground wire from the electrical pack.
5. Close both water valves on the heater / pump 1 water circuit.
6. Remove heater by unscrewing both unions on the ends of the heater.

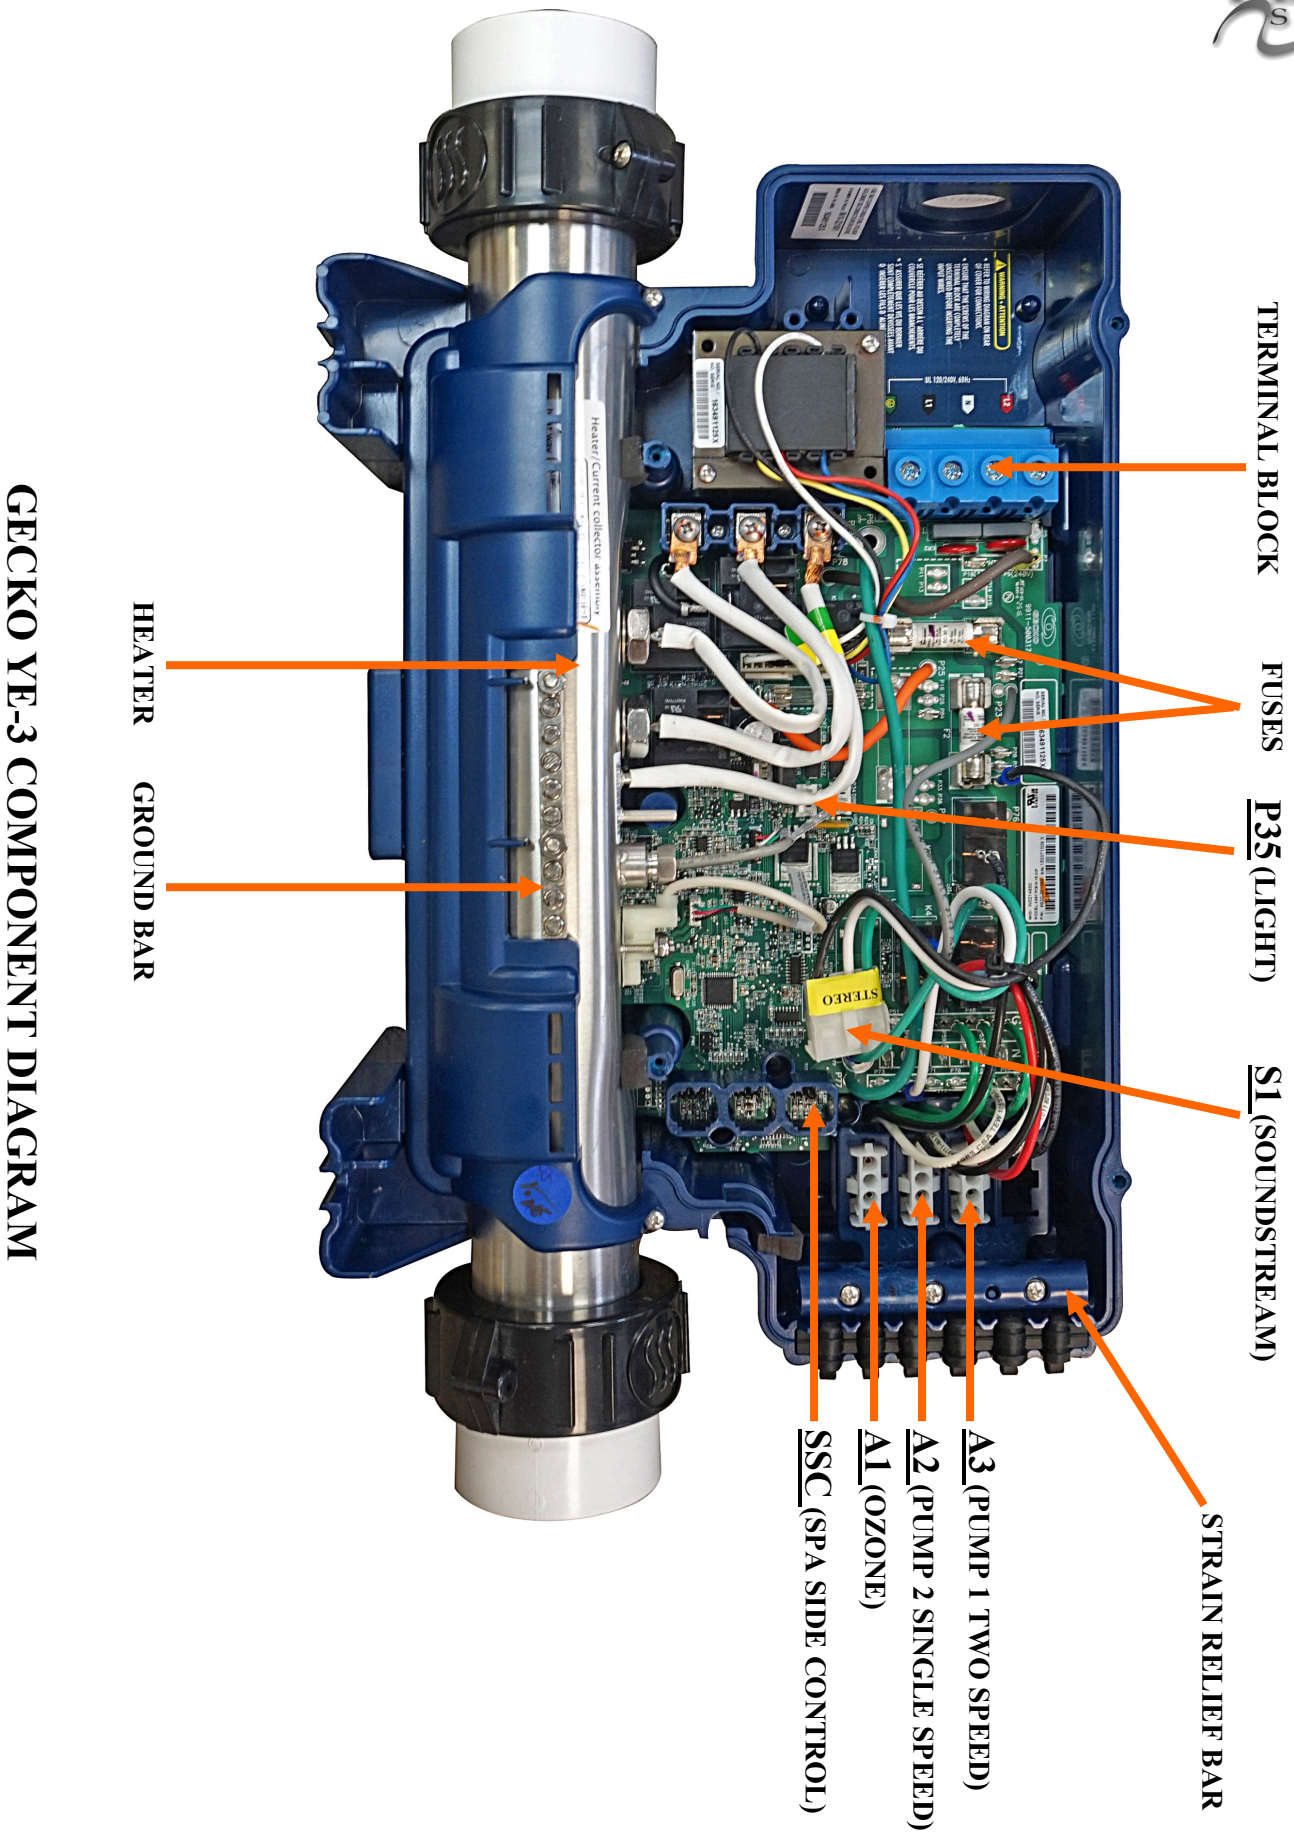

To Reinstall Heater on Gecko YE Equipment Pack:

Reverse the “Replacement” procedure above.

Any and all technical servicing is to be performed only by a professional, qualified trained technician in accordance with all local and national electrical codes.

Incorrect servicing procedures may void all warranties.
